

## **CMAA Water Summit, July 19/20, 2009 Call for Papers and Presenters**

The Construction Management Association of America will conduct “The Water Summit” at the Venetian Hotel/Casino, Sunday July 19 and Monday July 20. This program will bring together experts in the fields of Water, Waste Water and Water Reclamation Management to discuss emerging trends and best practices.

The educational sessions will address the topics:

1. Total Storm Water Management
2. Total Nutrient Loading
3. New Storm Water Regulations
4. Permitting and Commissioning
5. Water Security
6. Water Re-Use
7. Desalination
8. CM Best Practices for Water/Waste Water Infrastructure
9. Financing Water Infrastructure
10. Impacts of Population Growth on Water/Waste Water Infrastructure
11. Water Asset-Management
12. Regional Optimization Programs

We invite you to participate by presenting a paper, chairing a panel, or being a panelist. Each session lasts 75 minutes. We expect the maximum-possible audience engagement to ensure robust exchange of ideas and critical thinking.

This will be an extraordinary opportunity to engage the experts in exploring how we must become stewards of this planet’s most valuable resource.

If you choose to participate, please contact:

George S. Gehringer, PhD  
Vice President, Professional Development  
Construction Management Association of America  
Direct: (703) 677-3367  
[ggehringer@cmaanet.org](mailto:ggehringer@cmaanet.org)

and identify:

- the topic you will address
- your role, e.g., present a paper, chair a session, panelist

**Your input is needed by February 2, 2009.**

Please make a deliberate effort to identify others who should participate as well, by sharing this correspondence. Additionally, a “keynote” speaker is needed for the opening day, as are high-profile panelists for the “Town Hall” session on July 20.
